HAPPY CUSTOMERS

SEFES established in 1997, operates in the furniture manufacturing and custom solutions sector, delivering refined products shaped by expertise and precision. We specialize in developing high-quality, tailor-made solutions, responding to the unique requirements of each project.

With steadily growing momentum, SEFES Furniture proudly represents Turkey and Kayseri in the international market. Our production facility, covering a net area of 4,500 m², enables us to serve global markets, with a strong focus on European countries such as Germany, France, Austria, Italy, Switzerland, Malta and Romania, as well as North African, Middle Eastern and Gulf countries.

Backed by proven expertise across a wide range of applications, SEFES continuously invests in research, design, and production excellence.

Today, we manufacture for over 100 international companies, and our products can be found in hundreds of locations worldwide, reflecting our commitment to quality, reliability, and long-term partnership.

sefes®
Established in 1997

SEFES©
Reimagined in 2026

SEFES is a name shaped by family values and craftsmanship. What began as a family vision has evolved into a well-established manufacturing brand, supported today by a dedicated team of nearly 40 professionals.

SEFES has been a trusted solution partner for hotel and restaurant projects, delivering tailored furnishing solutions that combine aesthetics, durability, and functionality—crafted to meet the expectations of premium hospitality spaces.

A Heritage of Craftsmanship

Founded in 1997, SEFES began its journey with the selection and international trade of handcrafted Turkish carpets and rugs, valued for their authenticity and artistry. This early experience laid the foundation for our deep respect for materials, detail, and workmanship.

In 2003, SEFES entered furniture production, focusing initially on chairs.

By 2004, our expertise expanded to include metal and upholstered bedsteads, marking a decisive step toward specialized manufacturing.

In 2010, domestic sales of wooden-framed chairs, armchairs and other seating groups, as well as youth chairs, were increased,

From 2014 onwards, the focus shifted to domestic and international club, cafe and restaurant table, chair and bench sets.

In 2020, with the pandemic, metal-framed arm and armless chair models were developed and started to be produced for large wholesale companies,

In 2026, SEFES enters a transformative era. With strategic investments in state-of-the-art production technologies and an expanded focus on the 'premium sleeping' category, we are redefining the boundaries of comfort. This evolution is embodied in our new brand identity—a minimalist and sophisticated signature that honors our 29-year heritage while embracing a visionary future in global design.

Workshop

For us, a workshop is a place where masters work, where one-on-one work produces works that are close to art, where the craft is still taught and apprentices are trained.

As SEFES;

- Metal Workshop with modernized machines such as 5-Axis CNC Pipe Bending Machine, Welding Robot and Laser Welding,

- PU Injection Workshop that produces molds according to need,

- Wood Workshop specializing in panel wood processing,

- Foaming Shop which performs product whitening and preparation functions,

- Tailoring shop, which prepares the fabric/leather for upholstery,

- Upholstery Workshop that prepares the products,

- We offer combined production with a Packaging Workshop that controls the products and makes the final touches.
